February 28, 2024

Spee-Dee Delivery is proud to announce our upcoming expansion into the KANSAS CITY market effective Monday, April 8, 2024

Kansas City is a prime shipping hub based on its central U.S. location. This market provides a multitude of business opportunities. We have received numerous inquiries from our customers regarding servicing this area. We've heard the requests of our customers, and we will be expanding into the Kansas City market.

Customers will be able to start shipping into the three-digit ZIP Code prefixes 640-641 (Missouri) and 661-662 (Kansas) **effective with their April 8 shipments**. If your company utilizes Spee-Dee Ship Software and you have updated to 2024 rates (**version 3.24.1**), you will be able to ship from your location into the expanded service area beginning with your April 8 shipments. Spee-Dee Ship Software will automatically update, and the new ZIP Codes will be enabled on April 8. If your company is using an older version of Spee-Dee Ship Software, please update your software *today* to ensure you will have the ability to ship into Kansas City. You will also want to make sure you are using version 3.24.1 to ensure you're being charged the best available shipping rates. Update today: speedeedelivery.com/update. Companies that utilize a third-party manifest vendor are encouraged to reach out to their provider to ensure the new ZIP Codes have been added to their shipping capabilities effective April 8.

Spee-Dee Delivery customers will have the opportunity to ship parcels and pallets within our expanded service area. **We will offer next-day service between Kansas City and several major markets including Des Moines, Omaha, St. Louis, Minneapolis–St. Paul, and Chicago.** We are also seeking new shippers located within the Kansas City market. If you have affiliated companies or vendors that may be interested in setting up a shipping account, please have them reach out to our Sales Department: sales@speedeedelivery.com or (800) 862-5578. You can also provide us with their contact information, and we will gladly reach out to them.

Standard Account shippers will receive an updated Days In Transit map at their shipping location, delivered by their Spee-Dee Delivery driver, the week of April 1. In the meantime, customers can visit speedeedelivery.com/maps to view or download the map specific to their shipping location.

Spee-Dee LTL and On-Call Pick-Up Service shippers have unique shipping characteristics (often multiple shipping locations) that may not necessarily correspond with one specific Days In Transit map. These customers will not be sent a map. LTL and On-Call shippers may visit speedeedelivery.com/maps to view or download maps relevant to their shipping characteristics.

Walk-In Account shippers will have the ability to obtain a Days In Transit map from their Spee-Dee Delivery walk-in counter location beginning the week of April 1. They may also visit speedeedelivery.com/maps to view or download a map specific to their shipping location.

Our Delivery Area Surcharge (DAS) ZIP Code list as well as all Zone Charts have been updated to include the new ZIP Codes. Visit speedeedelivery.com/rates to view or download the updated information.

Please don't hesitate to reach out to our Sales Department at (800) 862-5578 or sales@speedeedelivery.com if you have any questions or would like more information about Kansas City. Thank you for being a valued Spee-Dee Delivery partner. We are excited to provide our customers with a growing delivery network and we look forward to additional expansions in the years to come.
